

PBYFL 2022 SEASON: COVID-19 RULES, GUIDELINES AND PLAN

First of all, our goal is to always keep everyone safe. The rules, guidelines and plan laid out below have been designed to provide a season for the kids to participate in while keeping everyone's health and safety our number one priority. We will follow the Governor's orders and implement every possible option to ensure a safe and complete season. These options could include, but are not limited to, pushing the season back or postponing for two weeks at any time once the season has started. Please keep in mind these rules and guidelines are subject to change depending on the Governor, CDC, UIL, and/or local governing agencies.

RECOMENDATIONS:

- Each organization is required to provide hand sanitizer at all practices, games and meetings.
- All footballs and equipment must be wiped down and cleaned frequently.
- Each player/cheerleader must bring his/her own water/drink. No team coolers or shared drinks.
- Encourage all families to keep players and cheerleader's home from practice and/or games if not feeling well or if any documented fever over 100.4.

IF A POSITIVE COVID-19 LAB TEST OCCURS:

- That player/cheerleader and immediate family will sit out for FIVE (5) DAYS and UNTIL all symptoms have resolved.

In the event a parent or family member tests positive, that family member shall not attend practice or games.

**In the event of an 'outbreak' on a single team of 3 or more positive children within a 10 day period, the league will require a "team quarantine" for 5 days and those children who are positive to remain home until symptom free.

** Quarantine no longer required for players/ cheerleaders for a positive family member.
